

Health and Safety Policy Statement

At Axiomatic Technologies Corporation, the health and safety of our employees is important. Axiomatic is committed to a goal of zero workplace injuries and illnesses.

In all situations, priority is given to protecting our personal safety (as well as that of any visitors). No task should be undertaken if there is concern about risk of injury. A second priority is to preserve materials, assets, and the environment against the risk of fire, damage, and other losses. Personal awareness and alertness, along with good work practices and processes, are the best method of achieving these priorities.

By working together collaboratively, and giving the most careful attention to health and safety aspects of our jobs, we will meet our shared objectives of a healthier and safer working environment.

All of us are responsible for, and will benefit from, working in a safe and healthy manner and reporting or resolving sub-standard and/or unhealthy conditions if any are noticed.

By committing to the above, we will ensure that we follow the spirit of this policy and go beyond minimal compliance with legislated requirements.

As an organization whose mission includes making an effective contribution to workplace health and safety, it is important for all of us to be part of a safe and healthy workplace. We want Axiomatic Technologies Corporation to stand as an example of excellence to others.

A handwritten signature in black ink, appearing to read "A. G. Hampton", is written above a horizontal line.
