

# SENSOR MODULES

## Inclinometers

AX06000X

Rugged and reliable position control  
Precise angle, slope or tilt measurement  
Single Axis, 180° or 360° or Dual Axes, 180°  
1 or 2 CANopen or J1939 ports

**Application:**

Boom, bucket, blade or attachment positioning control for construction equipment

## Tilt Sensor

AX060100

Out of level indicator  
Drives 2-2A solenoids, relays, lamps or annunciators  
Rugged, IP65 performance for harsh environments  
1 CANopen port for networking

**Application:**

Safety interlock or warning systems on lift equipment or platforms

## Resolver Sensor Modules

Robust alternative to a signal encoder  
360 degree resolver with integrated control electronics  
1 CANopen port for networking

AXRES-CO-1X-SL

**Application:**

Boom end positioning in cranes or drilling machines

AXRES-CO-V2

Specifications subject to change without notice.
