Counterfeit Parts Policy Statement

Axiomatic Technologies Corporation understands there is a worldwide problem with concern to counterfeit components entering the supply chain.

To protect our customers and provide quality products, Axiomatic Technologies Corporation will procure its components from the following sources:

- Component OEM Direct
- Component OEM authorized Franchise
- Component OEM authorized agent/representative

In an effort to mitigate our exposure to counterfeit components, purchasing directive is to procure product through only franchised distributors.

Where components are obsolete/EOL or allocated/hard to find and in the event that a situation demands the need to obtain product through alternate sources such as Independent Distributors or the Broker network, Axiomatic Technologies Corporation will purchase only from known and reputable sources.

In this case we ask suppliers to provide sufficient evidence such as inspection and verification reports to support authenticity of the components and obtain written approval from the customer to use such parts.
