

Health and Safety Policy Statement

At Axiomatic Technologies Corporation, the health and safety of our employees is important. Axiomatic is committed to a goal of zero injuries and illnesses.

In all situations, priority is given to protecting our employees and our visitors from illness, injury and risk, and preserving materials, assets, and the environment against the risk of fire, damage, and other losses.

By working together collaboratively, and giving the most careful attention to the management of health and safety, we will meet our shared objectives of a healthier and safer working environment. Managers are accountable for maintaining a working environment as free as possible from actual and potential hazards, and for ensuring the security of all.

Each employee is responsible for working in a safe and healthy manner, reporting all sub-standard and/or unhealthy conditions, and is encouraged to adopt a safe and healthy lifestyle on and off the job.

By committing to the above, we will ensure that we go beyond minimal compliance with legislated requirements and the spirit of the internal responsibility system.

As an organization whose mission is to make an effective contribution to workplace health and safety, it is important for all of us to value this policy and honour its commitment. We want Axiomatic Technologies Corporation to stand as an example of excellence to our staff and those we serve.

A handwritten signature in black ink, appearing to be "AGA", is written above a horizontal line.
