

PRESS RELEASE

August, 2022 – Mississauga, ON, Canada

Axiomatic Technologies Corporation has developed an 18-cell substack voltage monitor suitable for most battery chemistries.

The AX032000 unit features an 18-cell battery voltage interface that monitors voltage level with 0.5% accuracy. It has a wide battery stack voltage input of 0 to 90 Vdc and is suitable for most battery chemistries. The scan rate is programmable from 1 to 200 milliseconds. The unit contains 1 CAN port that is user configurable using Axiomatic's Electronic Assistant.

This IP-67 rated unit with rugged surge protection is suitable for use in fuel cells and hybrid power back-up systems.
