

PRESS RELEASE

December 12<sup>th</sup>, 2022 – Mississauga, ON, Canada

**Axiomatic Technologies Corporation has developed a 40A BLDC motor controller suitable for use in the harshest environments.**

The AX100250 BLDC motor controller features a unidirectional or bi-directional BLDC motor control with hall effect sensor feedback. This highly efficient and robust unit has flexible control of speed and torque. It communicates through SAE J1939 (CANopen® model also available).

This unit comes in a fully sealed, rugged, IP67 rated corrosion resistant aluminum housing. Its compact size allows for easy mounting on a vehicle.

Applications of this motor controller include hydraulic tail lifts and winches, golf carts, military equipment, mobile pumpers, hydraulic powerpacks, lift equipment, electrical vehicles, trucks, and cranes and hosts.
